

DEKBOARD[®]
decking and balustrade systems

Made-to-measure
access ramps
for the domestic
& leisure market

Quality, PVC access ramps

Whether you need an access ramp for your home, garden or static caravan, DekBoard has got you covered.

Our access ramp systems use the highest quality PVC boards and balustrade, making them long-lasting, easy to maintain, and most importantly safe.

Our ramp systems are designed to be low-maintenance. This means once installed, they only require cleaning with a soft brush and soapy water, unlike the upkeep of a timber deck.

To ensure your custom-made ramp is suitable for your access requirements, our friendly advisors will come to your property, conduct a site survey and provide a no-obligation quote.

Why DekBoard is the right choice

Safety is our main priority. That's why DekBoard ramp systems are slip-resistant, have excellent load-bearing capacity and are flame retardant. With a DekBoard ramp you can be sure that your design adheres to Part M of the Building Regulations, in addition to the following standards:

- Fire Resistance - BS EN 13501-1:2018
- Slip Resistance - BS 7976: Part 2
- Load Span Reference - BS EN 1991-1-1: 200

Site survey

Site survey to ensure a customised solution for your exact needs.

No obligation quote

Get your hassle-free quote, no strings attached.

Slip resistant

High levels of slip resistance - rain or shine.

Low maintenance

Easy to clean with no sanding or sealing required.

Extensive warranty

10 year structural performance warranty for peace of mind & product durability.

Rot & split resistant

Highly durable ramps that will not degrade like timber.

100% recyclable

100% recyclable and manufactured under ISO14001 Environmental Management Certification.

Putting our customers first

Excellent customer service and a product you can rely on.
