At DekBoard, we provide high-quality decking and balustrade systems, made especially for static caravans, lodges & park homes.

Our stylish decking and balustrade system is designed to increase the usable area in and around your static caravan, lodge or park home, meaning you can fully enjoy the outdoors and still feel safe, clean and in control of your own space.

Our durable, low maintenance products provide a practical, modern appearance, allowing you to relax and entertain friends and family in style.

Designed with you in mind:

- Versatile with a choice of two board widths - 145mm or 195mm
- Easy to clean
- Does not promote mould growth like timber
- Does not require treating, varnishing or painting
- Slip resistant surface
- Will not crack or splinter
- Will carry high loads
- No sharp edges or splinters
- Strong construction
- Wear and impact resistant
- Will not warp like timber
- Very low sound levels
- Stylish and modern
- Allows you to customise to suit your needs and taste
- Slightly domed surface to aid water run off
- Wide choice of deck colours
- A variety of plain or foiled balustrade finishes

Why DekBoard is the right choice

As staycations and park living in the UK grow in popularity, more and more caravan, lodge and park home owners are choosing to take full advantage of their outdoor space by adding a sun deck.

Our decking and balustrade system is made from durable PVC-u that won't degrade like timber. DekBoard boards won't twist or deform and keep their appearance without the need for constant painting or maintenance for years to come.

The woodgrain effect on our boards is slightly textured to provide good grip at all times and gently domed to aid water run off. DekBoard does not crack or splinter and has very low sound levels making the boards safe and quiet to walk on.

Product Testing

10 year performance guarantee

We are so confident about the quality of all our DekBoard products that we guarantee their structural integrity for 10 years.

The DekBoard range is made in the UK under strict quality, environmental and health and safety management systems. All our decking boards are checked for size, shape, colour and the quality of the finish. They are also tested for fire resistance, slip resistance, wear resistance and load carrying capacity.

DekBoard & DekBoard Plus is tested to:

- Fire Classification - BS EN 13501-1 : 2018
- Slip Resistance - BS7976 - 2
- Load Span Ref - BS EN 1991-1-1 : 2002

Decking boards

We offer a great range of practical decking boards with a traditional wood grain effect. The board's satin finish is embossed for good slip resistance and the domed surface aids water run off as well as making them easy to clean.

Introducing DekBoard Plus

In addition to our standard boards, we now offer DekBoard **Plus**, a wider 195mm board with a unique contemporary look.

DekBoard **Plus** has been introduced in line with the latest decking trends, giving a sleeker visual appeal, whilst providing the same great qualities as our standard board range.

Exclusive to our Holiday Home audience, DekBoard **Plus** really will help you create an outdoor living space with that added 'wow factor'.

Choose from the decking board colours on page 07 to find a colour that complements your holiday home.

Driftwood

Light Oak

Moss Grey

Due to the limitations of the printing process, the swatches and photography in this brochure should be taken as a guide and not an accurate representation of the actual product colour.

Balustrade system

Our traditional balustrade system will beautifully complement your deck. DekBoard balustrades can be made up in a number of ways, using traditional top and bottom rails with pickets or glass, glass panels set in-between the rails or the "infinity" look with glass panels and glass clamps.

Our balustrade rails are reinforced with a galvanized steel insert ensuring strength and rigidity. The pickets are pre-cut to height to suit the installation and may be set in a square or diamond orientation within the balustrade rails.

Vertical skirting

Ramps

Privacy screen

Privacy screens incorporated in your decking balustrade to enclose your decking or hot tub area.

Lighting

Variety of lighting options available from your local installer.

DekBoard maintenance and aftercare

To keep your low maintenance DekBoard product in top condition, we recommend cleaning your decking & balustrade with hot soapy water at least twice a year.

Important points:

- Ensure adequate ventilation underneath your decking and ensure under your decking is free from obstruction.
- Ensure a minimum non-obstructed 25mm ventilation gap between your decking and hot tub.
- Jet washers on a low pressure setting can be used for the decking boards only.
- **DO NOT USE JET WASHERS ON FOILED BALUSTRADE.**

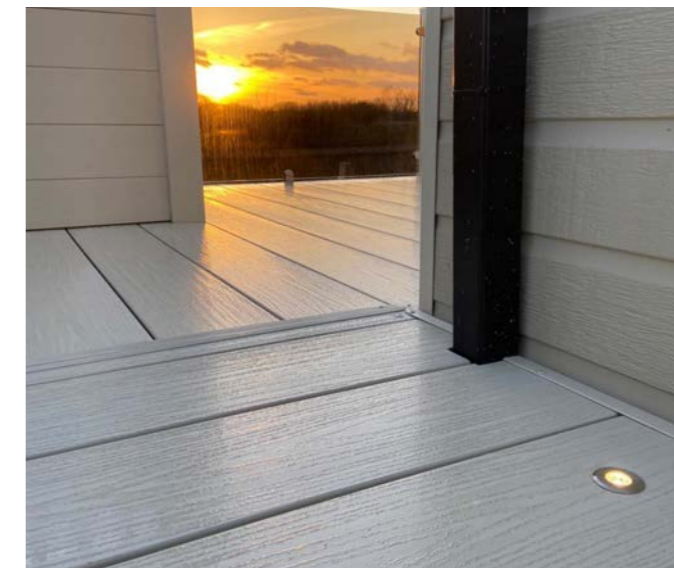

Cleaning and care:

- Clean your **decking** with a cleaning solution of warm soapy water using a cloth, sponge or soft bristle brush.
- Clean your **balustrade** with a cleaning solution of warm soapy water using a cloth or sponge.
- **DO NOT** place **ANY** hot surfaces or BBQs in the vicinity of the decking.
- **DO NOT** use any glass/PVC cleaning products or any forms of bleach or solvent.
- **DO NOT** scrub your decking or balustrade with any abrasive products, such as scourers, sandpaper, stiff or wire brushes etc.

Additional tips:

- Some brands of sun cream can permanently stain foiled balustrade finishes.
- **DO NOT** place rubber mats or rubber backed mats anywhere on the decking area.

* Please note, to ensure warranty remains intact please ensure above maintenance and aftercare guide lines are adhered to.

High quality hot tubs

DekBoard hot tubs are hand-crafted to ensure the ultimate luxury and enjoyment - time and time again. With simple designs, the tubs are easy to install and maintain, whilst being made from long-lasting, durable materials and offering the utmost in safety features.

HSG282 compliant hot tubs

DekBoard hot tubs are HSG282 compliant. This means they can be used across holiday and residential parks throughout the UK. Whether you're a holiday-let owner or simply looking for a top-quality hot tub, HSG282 compliant tubs are the ideal choice.

Our HSG282 hot tubs offer simplified topside controls, so you or your guests can operate the jets and lights with ease, whilst viewing water temperature. All other controls can be password protected, to ensure peak performance and cost-efficiency.

Our tubs also come with self-dosing water treatment devices and quick drain facilities, fitted as standard. Ideal for hassle-free maintenance and quick set-up / put-away.

Industry leading warranty

DekBoard hot tubs come with an industry-leading warranty, so you have peace of mind in your investment.

10 year shell limited warranty

We warrant against the loss of water through the shell caused by defect in materials and workmanship for 10 years from the original date of purchase.

Three year component limited warranty

We warrant the electrical components, pumps, air valves, slice valves, and hot tub components against malfunction, leaking or defects in materials or workmanship for a period of three years from the original date of purchase. There are exclusions to the component warranty.

Three year no leak limited warranty

We warrant the hot tub to not leak for a period of three years from original date of purchase.

10 year PermaWood™ cabinet limited warranty

We warrant the PermaWood™ cabinet material to be free from defects in material and workmanship for a period of 10 years from the original date of purchase.

Five year heater limited warranty

We warrant the heating element of the hot tub to be free of defects in materials and workmanship for a period of five years from the original date of purchase. Exclusions can be made in cases where improper chemical balance has been found to be the cause of failure.

Discover our range...

HP1

Our HP1 hot tub is the shallowest in our range, but has all the features and benefits of our larger tubs.

This perfectly compact and stylish hot tub can comfortably accommodate four adults, with unrestricted seating for optimum flexibility and relaxation.

It's also equipped with our DTS™ (Dual Therapy System), offering a combination of high volume whirlpool flow and targeted direct pressure jets.

HP2

Our HP2 hot tub offers great value and maximum comfort. With seating for five people, this tub is the perfect oasis to relax and unwind.

The exclusive DTS™ (Dual Therapy System) provides powerful jets for invigorating hydrotherapy to tense areas of the body. Whilst gentler, whirlpool flows offer whole-body therapy for the ideal spa experience.

HP3

The HP3 hot tub is designed to seat six people, offering a calming sanctuary to get away from it all.

With 32 powerful, targeted jets, this tub provides invigorating hydrotherapy to de-stress every area of the body.

The DTS™ (Dual Therapy System) also has a relaxing high volume whirlpool flow whilst we've also added a waterfall for maximum enjoyment.

HP4

Our most luxurious hot tub is the HP4, giving the ultimate relaxation and powerful hydrotherapy for up to six people.

Whilst 30 Nordic Star™ Jets target back, legs and feet, the exclusive DTS™ (Dual Therapy System) offers gentler, whole-body therapy to compliment the traditional, more targeted jets.

Design your deck

We understand the importance of having a beautiful and functional outdoor space for your static caravan, lodge or park home.

That's why we offer a range of decking solutions that are not only low maintenance but also modern and stylish.

We also know that finding a decking installer you can trust is equally important. So we work with a network of authorised decking installers throughout the UK who have the experience and expertise to deliver the high-quality results you're looking for.

The DekBoard national network of Authorised Installers

Our DekBoard Authorised Installers are on hand to provide advice and assistance in selecting the best decking and balustrade designs to meet your requirements and those of your park.

They will provide a design and quotation to your exact specification, including options for colour variations, access ramps, stairs, and picket or glass balustrades.

They will also ensure that your decking is installed to the highest standard, giving you the outdoor space you've always wanted.
